2.

NON-WOVEN GEL-FOAM BACKED CARPET

Printable non-woven flooring
with gel foam (resin) backing.

Fire resistance:
EN 13501-1: Cfl-S1.

100% polyester gel-foam
backed carpet.

High quality non-woven flooring with gel foam backing.
This material is crafted fully out of **100% polyester** with a
slight ecru finish in place of white.
Fire resistance: EN 13501-1: Cfl-S1

3.

FLOOR LINO R10 1200

1200gsm Floor Lino made from
heavy duty PVC

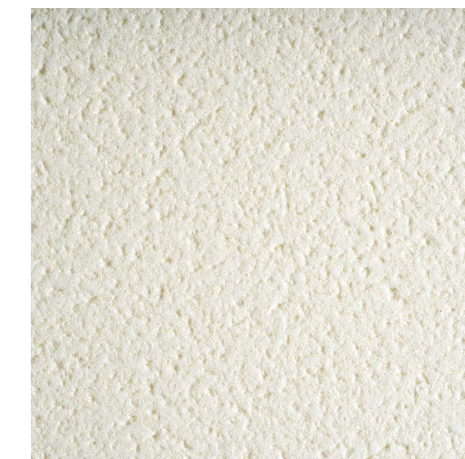

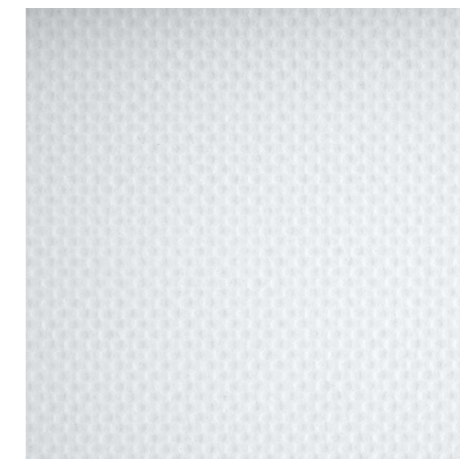

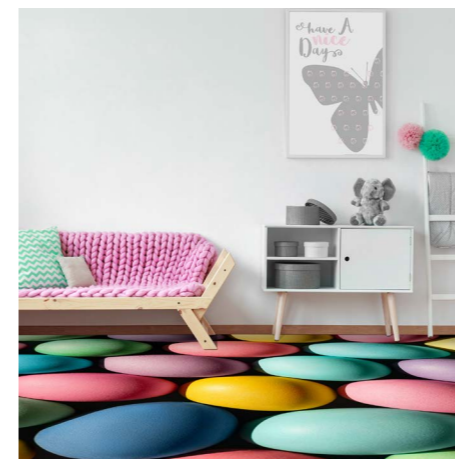

Foam PVC underlay

Slip Rated R10
Certification

High quality 1200gsm floor lino, made from a heavy duty
PVC and a foam PVC underlay.
Designed to provide maximum comfort and safety with a
R10 certification.

4.

COATED ALUMINIUM PERMANENT FLOOR VINYL *(300MIC)*

Easy bonding and removal

Slip Resistance
R12

Designed for short to medium term applications, aluminium floor vinyl can be used on surfaces such as asphalt, cement and untreated stone. This material is highly resistant to wear and tear and **requires no anti-slip laminate.**

Use this material for anything such as:

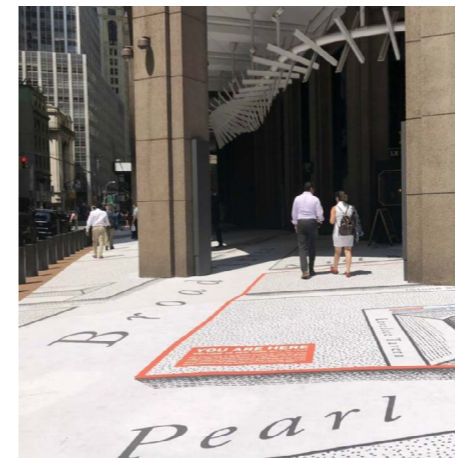

- Advertising space
- Showrooms
- Traffic Marking
- Stairs
- Meetings
- Parking Areas
- Driveways
- Bus Stops
